1 2 3 4 5 6 7 8 UNITED STATES DISTRICT COURT FOR THE WESTERN DISTRICT OF WASHINGTON 9 AT SEATTLE 10 CAROL COOPER, individually and on behalf of all others similarly situated, 11 Plaintiff, 12 NO. 13 v. **CLASS ACTION COMPLAINT** 14 AMAZON.COM, INC., a Delaware corporation, JURY DEMANDED and AMAZON.COM SERVICES, LLC, a 15 Delaware limited liability company, 16 Defendants. 17 **CLASS ACTION COMPLAINT** 18 Plaintiff, Carol Cooper, on behalf of herself and all others similarly situated, for her 19 Class Action Complaint against Defendants Amazon.com, Inc., and Amazon.com Services, 20 21 LLC (collectively, "Amazon"), states as follows: 22 **PARTIES** 23 1. Plaintiff is an Illinois citizen residing in Madison County, Illinois. 24 2. Defendant Amazon.com, Inc. is a Delaware corporation with its principal place 25 of business located in Washington. 26 TOUSLEY BRAIN STEPHENS PLLC

3. Defendant Amazon.com Services, LLC is a Delaware limited liability company with its principal place of business located in Washington.<sup>1</sup>

#### JURISDICTION AND VENUE

- 4. This Court has jurisdiction pursuant to the Class Action Fairness Act, 28 U.S.C. § 1332(d). Because Plaintiff and Defendants are citizens of different states, there is minimal diversity. The total claims of Class Members exceed \$5,000,000 exclusive of interest and costs. There are at least 100 Class Members.
- 5. This Court has personal jurisdiction over Defendants because they have their principal place of business in Washington and are, therefore, citizens of Washington.
- 6. Venue is proper in this district pursuant to 28 U.S.C. § 1391 because Defendants reside in this district and are residents of the State in which the district is located.

## **NATURE OF THE ACTION**

- 7. This claim involves Illinois' Biometric Information Privacy Act, 740 ILCS 14/1 et seq. ("BIPA"), a law that regulates companies that collect, store, and use Illinois citizens' biometric data, such as fingerprints, scans of face geometry, and voiceprints, and information derived therefrom.
- 8. Amazon is the world's leading e-commerce platform, with net sales of \$280 billion in 2019. Of that \$280 billion, \$193 billion was from the United States alone.<sup>2</sup>
- 9. According to James Marcus, an early employee of Amazon who became senior editor of Amazon.com: "It was made clear from the beginning that data collection was also one

<sup>&</sup>lt;sup>1</sup> Defendants Amazon.com Inc. and Amazon.com Services LLC are collectively referred to herein as "Amazon."

<sup>&</sup>lt;sup>2</sup> Form 10-K, Amazon.com, Inc., *available at* https://www.sec.gov/ix?doc=/Archives/edgar/data/1018724/000101872420000004/amzn-

identifiers and/or biometric information was being collected, stored, and used as required by 740 ILCS 14/15(b)(2);

- not developing and making available a written policy establishing a retention schedule and guidelines for permanently destroying biometric identifiers and/or biometric information as required by 740 ILCS 14/15(a);
- selling, leasing, trading, or otherwise profiting from Plaintiff's and Class Members' biometric identifiers and/or biometric information in violation of 740 ILCS 14/15(c);
- disclosing, redisclosing, or otherwise disseminating Plaintiff's and Class Members' biometric identifiers and/or biometric information to third parties, without satisfying the requirements of 740 ILCS 14/15(d)(1)-(4);
- not storing, transmitting, and/or protecting from disclosure Plaintiff's and Class Members' biometric identifiers and/or biometric information using the reasonable standard of care within the industry, in violation of 740 ILCS 14/15(e)(1); and/or
- not storing, transmitting, and/or protecting from disclosure Plaintiff's and Class Members' biometric identifiers and/or biometric information in a manner that is the same as or more protective than the manner in which Amazon stores, transmits, and protects other confidential and sensitive information, in violation of 740 ILCS 14/15(e)(2).
- 14. Accordingly, Plaintiff seeks to represent a class of similarly situated individuals to obtain an Order: (A) awarding Plaintiff and each Class Member statutory damages of \$5,000 for each willful and/or reckless violation of BIPA pursuant to 740 ILCS 14/20(2), or, in the alternative, statutory damages of \$1,000 for each negligent violation of BIPA pursuant to 740 ILCS 14.20(1); (B) enjoining Amazon from collecting, obtaining, storing, using, selling, leasing, trading, profiting from, disclosing, redisclosing, or otherwise disseminating Plaintiff's and the Class Members' biometric identifiers and biometric information until done so in compliance with BIPA; (C) awarding Plaintiff and the Class Members reasonable attorneys'

fees, costs, and other expenses pursuant to 740 ILCS 14/20(3); (D) awarding Plaintiff and the Class Members pre-and post-judgment interest, as provided by law; and (E) awarding such other and further relief as is just and appropriate.

### Illinois' Biometric Information Privacy Act

- 15. The Illinois General Assembly enacted the Biometric Information Privacy Act, 740 ILCS 14/et seq. ("BIPA") in 2008 to establish standards of conduct for private entities that collect or possess biometric identifiers and biometric information.
- 16. The Illinois General Assembly noted that BIPA was carefully crafted to protect biometric data because "unlike other unique identifiers that are used to access finances or other sensitive information," one's own biometric information cannot be changed; "[t]herefore, once compromised, the individual has no recourse, is at heightened risk for identity theft, and is likely to withdraw from biometric-facilitated transactions." 740 ILCS 14/5.
- 17. "Biometric identifiers" covered by BIPA include retina or iris scans, fingerprints, voiceprints, and scans of human or face geometry, none of which can be changed if compromised. 740 ILCS 14/10.
- 18. "Biometric information" covered by BIPA includes "any information, regardless of how it is captured, converted, stored, or shared, based on an individual's biometric identifier used to identify an individual." *Id*.
- 19. BIPA makes it unlawful for any private entity to, *inter alia*, "collect, capture, purchase, receive through trade, or otherwise obtain a person's or a customer's biometric identifier or biometric information unless it first: (1) informs the subject . . . in writing that a biometric identifier or biometric information is being collected or stored; (2) informs the subject . . . in writing of the specific purpose and length of term for which a biometric identifier

or biometric information is being collected, stored, and used; and (3) receives a written release executed by the subject of the biometric identifier or biometric information . . . ." 740 ILCS 14/15(b).

- 20. Furthermore, BIPA requires that any "private entity in possession of biometric identifiers or biometric information must develop a written policy, made available to the public, establishing a retention schedule and guidelines for permanently destroying biometric identifiers and biometric information when the initial purpose for collecting or obtaining such identifiers or information has been satisfied or within 3 years of the individual's last interaction with the private entity, whichever occurs first." 740 ILCS 14/15(a).
- 21. BIPA also provides that "[n]o private entity in possession of a biometric identifier or biometric information may sell, lease, trade, or otherwise profit from a person's or a customer's biometric identifier or biometric information." 740 ILCS 14/15(c).
- 22. BIPA further makes it unlawful for any private entity in possession of a biometric identifier to "disclose, redisclose, or otherwise disseminate a person's or a customer's biometric identifier or biometric information unless: (1) the subject of the biometric identifier or biometric information . . . consents to the disclosure or redisclosure; (2) the disclosure or redisclosure completes a financial transaction requested or authorized by the subject of the biometric identifier . . . ; (3) the disclosure or redisclosure is required by State or federal law or municipal ordinance; or (4) the disclosure is required pursuant to a valid warrant or subpoena issued by a court of competent jurisdiction." 740 ILCS 14/15(d).
- 23. Finally, BIPA provides that "[a] private entity in possession of a biometric identifier or biometric information shall: (1) store, transmit, and protect from disclosure all biometric identifiers and biometric information using the reasonable standard of care within the

private entity's industry; and (2) store, transmit, and protect from disclosure all biometric identifiers and biometric information in a manner that is the same as or more protective than the manner in which the private entity stores, transmits, and protects other confidential and sensitive information.

- 24. BIPA provides for a private right of action: "Any person aggrieved by a violation of this Act shall have a right of action in a State circuit court or as a supplemental claim in federal district court against an offending party." 740 ILCS 14/20.
- 25. The Illinois Supreme Court has explained that a person whose biometric identifiers are the subject of violations of section 15 of BIPA is "aggrieved" by the entity's failure to comply with BIPA and is "entitled to seek recovery" under Section 14/20. *Rosenbach v. Six Flags Entm't Corp*, 2019 IL 123186, ¶ 33 ("[W]hen a private entity fails to comply with one of section 15's requirements, that violation constitutes an invasion, impairment, or denial of the statutory rights of any person or customer whose biometric identifier or biometric information is subject to the breach. Consistent with the authority cited above, such a person or customer would clearly be 'aggrieved' within the meaning of section 20 of the Act (*id.* § 20) and entitled to seek recovery under that provision. No additional consequences need be pleaded or proved. The violation, in itself, is sufficient to support the individual's or customer's statutory cause of action.").
- 26. Under BIPA, "[a] prevailing party may recover *for each violation*: (1) against a private entity that negligently violates a provision of this Act, liquidated damages of \$1,000 or actual damages, whichever is greater; (2) against a private entity that intentionally or recklessly violates a provision of this Act, liquidated damages of \$5,000 or actual damages, whichever is greater; (3) reasonable attorneys' fees and costs, including expert witness fees and other

litigation expenses; and (4) other relief, including an injunction, as the State or federal court may deem appropriate." *Id.* (emphasis added).

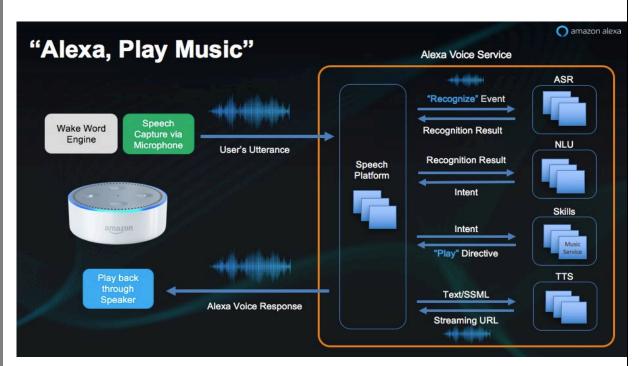

27. Under BIPA, each instance of collecting and/or disclosing a person's biometric data without consent constitutes a separate violation for which recovery can be had. *See Cothron v. White Castle Sys., Inc.*, 477 F. Supp. 3d 723, 732–34 (N.D. Ill. 2020) ("[The statutory] text is unambiguous and therefore dispositive. A party violates Section 15(b) when it collects, captures, or otherwise obtains a person's biometric information without prior informed consent. This is true the first time an entity scans a fingerprint or otherwise collects biometric information, but it is no less true with each subsequent scan or collection. . . . The language of Section 15(d) requires the same result. . . . [T]he Court is bound by the clear text of the statute . . . . [I]t is not the role of a court—particularly a federal court—to rewrite a state statute to avoid a construction that may penalize violations severely. . . . In sum, the Court concludes that [the plaintiff] has alleged multiple timely violations of both Section 15(b) and Section 15(d). According to BIPA Section 20, she can recover 'for each violation.' 740 ILCS 14/20.").

#### **How Alexa Works**

- 28. Alexa devices are designed to record and respond to oral communications upon hearing a "wake word" (usually "Alexa").
- 29. If the "wake word" is not spoken, Amazon claims that Alexa-enabled devices will not capture a user's conversations.<sup>5</sup>

<sup>&</sup>lt;sup>5</sup> Alexa and Alexa Device FAQ's, Amazon.com, <a href="https://www.amazon.com/gp/help/customer/display.html?linkCode=w61&imprToken=28-fLyu75f7XPVZKlgVB7w&slotNum=0&nodeId=201602230">https://www.amazon.com/gp/help/customer/display.html?linkCode=w61&imprToken=28-fLyu75f7XPVZKlgVB7w&slotNum=0&nodeId=201602230</a> (last visited July 8, 2021).

- 40. Alexa's response system then takes the SSML that was produced, uses a text-to speech (TTS) system to generate an audio speech file, and streams the audio to the user's device.
- 41. Generally, Alexa's response ends the interaction, though in some circumstances, Alexa may ask follow-up questions to the user that require answers in order for Alexa to provide a complete response to the user's inquiry. If a follow-up answer is provided, the Alexa device captures the speaker's voiceprint and the Alexa Voice Service repeats the steps described above.
- 42. The speech capture, Alexa Voice Service, and response process is represented below:

# Amazon's Collection, Use, Storage, and Disclosure of Users' Biometric Data

43. After Alexa has responded to a user's request, Amazon does not delete the voiceprint or the transcription created by that request.

- 44. Instead, Amazon captures, collects, and indefinitely retains the voiceprint on its servers for continued use and analysis, in order to, *inter alia*, improve its speech and voice recognition capabilities.
- 45. For years, Amazon represented that the voiceprints were simply streamed to the cloud and used only to allow Alexa to respond to the command and help personalize Alexa's response to a user.
- 46. Amazon has more recently, however, indicated that it stores voiceprints and the transcriptions made from the voiceprints on multiple servers.
- 47. Moreover, Amazon captures, collects, and indefinitely retains the voiceprints of users when Alexa activates by mistakenly "hearing" the wake word.
- 48. All voiceprints from the Amazon customer are associated with the customer's Amazon account.
- 49. Amazon collects, obtains, and stores the voiceprint and transcription created therefrom to improve Alexa via a process known as "machine learning."
- 50. Machine learning only works when the artificial intelligence system underlying it is supported with data, from which the system can learn and develop.
- 51. In Amazon's case, Alexa's machine learning is bolstered by what likely amounts to hundreds of millions, if not billions, of voiceprints that Amazon has stored on its servers, which it uses to constantly refine the natural language understanding that is critical to Alexa's function.
- 52. In addition, according to an article by Bloomberg, Amazon.com, Inc. employs thousands of people around the world, both full-time Amazon employees and third-party

contractors, who listen to voice recordings, have access to voiceprints, and review the 1 transcriptions captured by Amazon's Echo device. 12 2 3 53. These Amazon workers transcribe and annotate the aforementioned data as part 4 of an effort to eliminate gaps in Alexa's understanding of human speech and to help it better 5 respond to commands. 13 6 54. The teams also use internal chat rooms to share audio files "when they need help 7 parsing a muddled word—or come across an amusing recording."14 8 55. Because of Amazon's collection of voiceprints and transcripts thereof, Amazon 9 has been able to significantly improve all of its voice-based products and services to the point 10 11 that, in August 2019, Amazon reported that Alexa answered queries accurately 80% of the 12 time, up 19 percentage points from 61% in July 2018. 15 13 Once Amazon is in possession of the voiceprint, Amazon employees may access 56. 14 it, and identify the location of the device where it was obtained and other data collected by the 15 Alexa device. 16 57. Upon information and belief, the voiceprint is also aggregated with data from 17 other Amazon sources, such as the user's shopping history, order history, or reminders to create 18 19 profiles of information for Amazon to utilize for its own business purposes. 20 /// 21 22 <sup>12</sup> Matt Day, et al., Is Anyone Listening to You on Alexa? A Global Team Reviews (Apr. 10, 2019), https://www.bloomberg.com/news/articles/2019-04-10/is-anyone-listening-to-you-on-23 alexa-a-global-team-reviews-audio. 24 <sup>13</sup> *Id*. <sup>14</sup> *Id*. 25 <sup>15</sup> Rayna Hollander, Amazon is improving the accuracy of Alexa's natural language 26 understanding (Oct. 11, 2019), https://www.businessinsider.com/amazon-bolsters-alexa-skillvoice-accuracy-2019-10.

- 58. Amazon does not delete the voiceprints after they have been used to provide a response. Instead, Amazon stores the voiceprints, which Amazon's artificial intelligence and human employees then review for Amazon's business purposes.
- 59. Amazon does not allow a user to stop it from collecting voiceprints. The only way to stop Amazon's collection of voiceprints is to mute the microphone or deactivate the device, both of which defeat the device's utility.
- 60. In 2019, Amazon began providing users the ability to delete voice recordings; however, while Amazon's current policies tell customers that they may delete voice recordings, Amazon is unclear as to whether this deletes all of the voiceprints Amazon has collected and the transcriptions made from those voiceprints.<sup>16</sup>
- 61. For instance, Amazon states that even if a customer deletes an audio recording, Amazon, or third-party developers may retain "records of the interaction. For example, for many types of Alexa requests—such as when a customer subscribes to Amazon Music Unlimited, places an Amazon Fresh order, requests a car from Uber or Lyft, orders a pizza from Dominos, or makes an in-skill purchase of premium digital content—Amazon and/or the applicable skill developer obviously need to keep a record of the transaction." <sup>17</sup>
- 62. Moreover, as stated by Theresa Payton, a former White House chief information officer and founder of cybersecurity company Fortalice: "Delete' is never really 'delete." "Delete just means that you can't see it anymore." 18

<sup>&</sup>lt;sup>16</sup> See Letter from Amazon to Senator Christopher A. Coons;

1	63.	Amazo	on does not, and/or within the Class Period failed to, disclose the
2	following to its users:		
3		A.	that Amazon creates, analyzes, and utilizes a user's voiceprint and that
4			the same is stored on Amazon's servers indefinitely;
5		B.	that Amazon creates, analyzes, stores, and utilizes a transcription of a
6			user's request, derived from the aforementioned voiceprint, and stores
7 8			the same on Amazon's servers indefinitely;
9		C.	that human employees and third-party contractors have access to and
10			utilize users' voiceprints and the transcriptions created therefrom, or the
11			extent of such access and use;
12		D.	the retention schedule associated with a user's voiceprint and the
13			transcription created from the voiceprint; and
14 15		E.	guidelines for a user to permanently delete all of their voiceprints and the
16			transcriptions made therefrom, from all of Amazon's servers.
17	64.	Furthe	ermore, Amazon collects, captures, stores, and utilizes the voiceprints and
18			
19	users of Alexa	a-enable	ed products.
20	65.	David	Limp, the Senior Vice President of Devices and Services at Amazon.com
21	acknowledged Amazon's inadequate disclosures, and Robert Frederick, former Senior Manager		
22   23	and Amazon	Web Se	rvices acknowledged that he actually turns off his Alexa devices to
24	prevent private conversations from being shared:		
25		NARR	RATOR:
26			the device is awake and the blue light is on, it's recording.  ast year, it was revealed that Amazon employs thousands of

people around the world to listen and transcribe some of those 1 recordings to help train the system. 2 JAMES JACOBY [Correspondent]: 3 Do you think that you did a good enough job of disclosing that to 4 consumers? That there are humans involved in listening to these recordings? 5 DAVE LIMP [Amazon Senior Vice President, Devices & 6 Services]: 7 We try to articulate what we're doing with our products as clearly 8 as we can. But if I could go back in time and I could be more clear and the team could be more clear on how we were using 9 human beings to annotate a small percentage of the data, I would, for sure. What I would say, though, is that once we realize that 10 customers didn't clearly understand this, within a couple of days 11 we added an opt-out feature so that customers could turn off annotation if they so chose. And then within a month or two later 12 we allowed people to auto-delete data, which they also asked for within that time frame. 13 We're not going to always be perfect, but when we make 14 mistakes, I think the key is that we correct them very quickly on 15 behalf of customers. 16 NARRATOR: 17 But even one of the founders of Amazon Web Services approaches his Alexa devices with caution. 18 19 JAMES JACOBY: 20 When do you turn off your Alexa? 21 ROBERT FREDERICK, Former senior manager, Amazon Web 22 Services: 23 I turn off my Alexa when I know for a fact that the conversation that I am going to have or whenever I just want to have a private 24 moment. I don't want certain conversations to be heard by humans, conversations that I know for a fact are not things that 25 26

should be shared, then I actually turn off those particular listening 1 devices. 19 2 Plaintiff's Experience 3 66. Plaintiff is an Amazon Prime member who owns an Amazon Echo equipped 4 with Alexa services. 5 67. On numerous occasions during the Class Period, Plaintiff, an Illinois citizen, 6 7 spoke to her Alexa device located in her home in Illinois. 8 68. After Plaintiff spoke into the Alexa device, Amazon collected, captured, 9 received through trade, or otherwise obtained and disclosed Plaintiff's voiceprint and 10 transcription thereof. 11 69. Amazon did not obtain written releases from Plaintiff before capturing, 12 collecting, receiving through trade, or otherwise obtaining her biometric identifiers or biometric 13 information in compliance with 740 ILCS 14/15(b)(3). 14 15 70. On certain occasions, Plaintiff's Alexa device would also light up when Plaintiff 16 spoke words other than the "wake-word." 17 Plaintiff's voiceprints are "biometric identifiers" pursuant to 740 ILCS 14/10. 71. 18 72. Transcripts of Plaintiff's voice recordings, which are derived from biometric 19 identifiers, are "biometric information" pursuant to 740 ILCS 14/10. 20 73. Any other data in Amazon's possession that links Plaintiff's voiceprints to 21 22 Plaintiff also constitutes "biometric information" pursuant to 740 ILCS 14/10. 23 74. As set forth herein, Amazon obtained the biometric identifiers and/or biometric 24 information of Plaintiff and the Class in violation of BIPA. 25 26 <sup>19</sup> PBS Frontline. Amazon's failures to comply with BIPA as set forth herein violated Plaintiff and 75. the Class Members' privacy rights, and the harm to Plaintiff and the Class occurred in Illinois. See Cothron, 477 F. Supp.3d at 732 n.7 ("[T]he privacy concerns are implicated equally whether the new data is sent off-site for comparison or the old data is retrieved from an off-site location so that the comparison can take place on-site."); In re Facebook Biometric Info. Privacy Litig., 326 F.R.D. 535, 547–48 (N.D. Cal. 2018) ("None of the class members are nonresidents suing under Illinois law . . . . Contrary to Facebook's suggestion, the geographic location of its data servers is not a dispositive factor. The functionality and reach of modern online services like Facebook's cannot be compartmentalized into neat geographic boxes. Making the geographic coordinates of a server the most important circumstance in fixing the location of an Internet company's conduct would yield the questionable results Avery [v. State Farm Mut. Auto. Ins. Co., 216 Ill.2d 100, 185 (Ill. 2005)] counsels against. Among other problematic outcomes, it would effectively gut the ability of states without server sites to apply their consumer protection laws to residents for online activity that occurred substantially within their borders. [Citation.] Correlatively, a single-minded focus on server location would also potentially nationalize the consumer protection laws of states that host servers, which in this case includes California. Both outcomes are fraught with unintended and undesirable consequences.").

### **CLASS ACTION ALLEGATIONS**

76. Plaintiff brings this class action on behalf of herself and all others similarly situated, as representative of the following class (the "Class"):

All Illinois residents: (a) who own an Amazon Alexa device; and (b) from whom Amazon obtained a voice recording from an Amazon Alexa device located in Illinois during the Class Period.

- Excluded from the Class are any Defendants, its parents, subsidiaries, affiliates, predecessors, successors, officers, directors, and the immediate family members of such persons. Also excluded are any trial judge who may preside over this action, court personnel and their family members and any juror assigned to this action.
- Plaintiff reserves the right to amend or modify the Class definitions with greater specificity or division into subclassses after having had an opportunity to conduct discovery.
- The Class Period is that period within the statute of limitations for this action
  - The Class is certifiable under Fed. R. Civ. P. 23.
- **Numerosity.** The members of the Class are so numerous that joinder of all members is impracticable. The determination of the numerosity factor can be made from
- **Typicality.** Plaintiff's claims are typical of the claims of the Class Members. Plaintiff and all Class Members have had their rights under BIPA violated based on Amazon's failure to comply with the provisions of BIPA.
- **Commonality and Predominance**. There are questions of law and fact common to the Class, which predominate over any questions affecting individual members of the Class. These common questions of law and fact include, without limitation:
  - Whether Amazon collected, captured, received through trade, or otherwise obtained biometric identifiers or biometric information of Plaintiff and the Class;
  - Whether Amazon developed, made available to the public and complied with a retention and destruction policy in compliance with 740 ILCS 14/15(a);

1 2	c.	Whether Amazon informed Plaintiff and the Class in writing that it was collecting their biometric identifier or biometric information in compliance with 740 ILCS 14/15(b)(1);
3	d.	Whether Amazon informed Plaintiff and the Class in writing of
4		the specific purpose and length of term for which it was collecting their biometric identifier or biometric information in
5		compliance with 740 ILCS 14/15(b)(2);
6	e.	Whether Amazon received written releases executed by Plaintiff
7		and the Class before capturing, collecting, receiving through trade, or otherwise obtaining their biometric identifiers or
8		biometric information in compliance with 740 ILCS 14/15(b)(3);
9	f.	Whether Amazon sold, leased, traded, or otherwise profited from the biometric identifier or biometric information of Plaintiff and
10		the Class;
11	g.	Whether Amazon disclosed, redisclosed, or otherwise
12		disseminated the biometric identifier or biometric information of Plaintiff and the Class and whether such disclosure, redisclosure,
13		or dissemination was in compliance with 740 ILCS 14/15(d)(1)-(4);
14	h.	Whether Amazon stored, transmitted, and protected from
15 16		disclosure all biometric identifiers and biometric information of Plaintiff and the Class using the reasonable standard of care
17		within the industry in compliance with 740 ILCS 14/15(e)(1);
18	i.	Whether Amazon stored, transmitted, and protected from disclosure all biometric identifiers and biometric information of
19		Plaintiff and the Class in a manner that is the same as or more protective than the manner in which it stores, transmits, and
20		protective than the manner in which it stores, transmits, and protects other confidential and sensitive information in compliance with 740 ILCS 14/15(e)(2); and/or
21	;	Whether any violations of BIPA by Amazon were reckless,
22	j.	intentional, or negligent.
23	84. <b>Ade</b> o	quacy. Plaintiff is a member of the Class she seeks to represent, is
24	committed to the vig	gorous prosecution of this action, and has retained competent counsel
25	experienced in the p	rosecution of class actions. Accordingly, Plaintiff is an adequate
26		vill fairly and adeuately protect the interests of the Class.

26

85. **Superiority.** A class action is an appropriate method for the fair and efficient adjudication of this controversy and is superior to all other available methods. Because the amount of each individual Class member's claim is small relative to the complexity of the litigation, and due to the financial resources of Defendants, no Class member could afford to seek legal redress individually for the claims alleged herein. Therefore, absent a class action, Class members will continue to suffer losses and Defendants' misconduct will proceed without remedy. Even if Class members could afford such individual litigation, the court system could not. Given the complex legal and factual issues involved, individualized litigation would significantly increase the delay and expense to all parties and to the Court. Individualized litigation would also create the potential for inconsistent or contradictory rulings. By contrast, a class action presents far fewer management difficulties, allows claims to be heard that might otherwise go unheard because of the relative expense of bringing individual lawsuits, and provides the benefits of adjudication, economies of scale, and comprehensive supervision by a single court. Finally, Plaintiff knows of no difficulty that will be encountered in the management of this litigation that would preclude its maintenance as a class action.

86. **Class Action on Limited Issues.** Because there are common individual issues among the Class, it is appropriate for this action to be maintained as a class action with respect to particular issues if necessary. *See* Fed. R. Civ. P. 23(c)(4).

# **CLAIMS FOR RELIEF**

### **COUNT I**

# Amazon's Violations of the Biometric Information Privacy Act, 740 ILCS 14/15(a)

- 87. Plaintiff incorporates by reference each and every allegation set forth above.
- 88. Amazon qualifies as a "private entity" under BIPA. 740 ILCS 14/10.

- 89. On numerous occasions during the Class Period, Amazon has collected, captured, received through trade, or otherwise obtained Plaintiff's and the Class Members' voiceprints and transcriptions thereof.
- 90. For some or all of the Class Period, Amazon did not develop a written policy, made available to the public, establishing a retention schedule and guidelines for permanently destroying biometric identifiers and biometric information to occur by the earlier of: (a) when the original purpose for collecting or obtaining such identifiers has been satisfied, or (b) within 3 years of the individual's last interaction with the private entity, as required by 740 ILCS 14/15(a).
- 91. To the extent Amazon has had such a retention and destruction policy in place that complies with BIPA, its failure to permanently delete Plaintiff and the Class' biometric identifiers and/or biometric information in compliance with such policy constitutes a violation of 740 ILCS 14/15(a).
- 92. In violating BIPA, a law in effect since 2008, Amazon acted, and continues to act, recklessly and/or intentionally. At the least, Amazon negligently violated BIPA.
- 93. Plaintiff and the Class Members are "aggrieved" under BIPA based on Amazon's violation of their rights under BIPA, and accordingly are entitled to seek damages and relief provided for under the statute. *See Rosenbach*, 2019 IL 123186, ¶ 40.
- 94. Plaintiff and the Class Members seek, *inter alia*, statutory damages of \$5,000 per intentional or reckless violation of BIPA pursuant to 740 ILCS 14/20(2), statutory damages of \$1,000 per negligent violation of BIPA pursuant to 740 ILCS 14/20(1), and reasonable attorneys' fees and costs pursuant to 740 ILCS 14/20(3).

WHEREFORE, Plaintiff and the Class pray for the relief requested in the Prayer for Relief set forth below.

#### **COUNT II**

### Amazon's Violations of the Biometric Information Privacy Act, 740 ILCS 14/15(b)

- 95. Plaintiff incorporates by reference each and every allegation set forth above.
- 96. Plaintiff and the Class did not execute a written release related to Amazon's collection, capturing, purchasing, receiving through trade, or otherwise obtaining their voiceprints, transcriptions thereof, or other biometric information derived from the voiceprints.
- 97. For some or all of the Class Period, Amazon did not properly inform Plaintiff and the Class in writing that their biometric identifiers and/or biometric information was being collected and/or stored, nor did it inform them in writing of the specific purpose and length of term for which their biometric identifiers and/or biometric information was being collected, stored, and used as required by 740 ILCS 14/15(b)(1)-(2).
- 98. For some or all of the Class Period, Amazon systematically and intentionally collected, obtained, used, and/or stored the biometric identifiers and/or biometric information of Plaintiff and the Class without first obtaining from Plaintiff and the Class Members the specific executed written release required by 740 ILCS 14/15(b)(3).
- 99. In violating BIPA, a law in effect since 2008, Amazon acted, and continues to act, recklessly and/or intentionally. At the least, Amazon negligently violated BIPA.
- 100. Plaintiff and the Class Members are "aggrieved" under BIPA based on Amazon's violation of their rights under BIPA, and accordingly are entitled to seek damages and relief provided for under the statute. *See Rosenbach*, 2019 IL 123186, ¶ 40.

101. Plaintiff and the Class Members seek, *inter alia*, statutory damages of \$5,000 per intentional or reckless violation of BIPA pursuant to 740 ILCS 14/20(2), statutory damages of \$1,000 per negligent violation of BIPA pursuant to 740 ILCS 14/20(1), and reasonable attorneys' fees and costs pursuant to 740 ILCS 14/20(3).

WHEREFORE, Plaintiff and the Class pray for the relief requested in the Prayer for Relief set forth below.

#### **COUNT III**

### Amazon's Violations of the Biometric Information Privacy Act, 740 ILCS 14/15(c)

- 102. Plaintiff incorporates by reference each and every allegation set forth above.
- 103. As set forth above, for some or all of the Class Period, Amazon used the biometric identifiers and/or biometric information of Plaintiff and the Class to improve Alexa's natural language understanding and for its own commercial purposes.
- 104. Amazon's use of the biometric identifiers and biometric information of Plaintiff and the Class to improve Alexa's natural language understanding, expand the scope of Alexa products, and create other business opportunities for Amazon has benefited Amazon through increased sales of its improved voice-recognition products.
- 105. For instance, Amazon has utilized the biometric identifiers and/or biometric data to make Alexa compatible with over 100,000 products. Without the identified biometric data, there would be fewer, and worse-functioning Alexa products for Amazon to profit from.
- 106. Moreover, Amazon has profited from linking the voiceprints in their possession to Plaintiff and the Class's accounts and other activities involving Amazon.
- 107. As Shoshanna Zuboff, author of "The Age of Surveillance Capitalism," puts it: "[Amazon] is going to know more about you than anyone knows. They're trying to move as

intimately as possible and as quietly as possible into everyday life. Amazon wants to have the entire environment essentially miked. They want your walk in the park, they want your run down the city street. They want what you do in your car, they [want] what you do in your home. All these intimacies, all this insight is being integrated—analyzed and integrated. That is an extraordinary kind of power that has never existed before."<sup>20</sup>

- 108. Furthermore, Amazon has used the biometric identifiers and biometric information of Plaintiff and the Class to create technology that is so intertwined with the biometric data that marketing the Alexa technology is essentially disseminating biometric data for profit.
- 109. Additionally, Amazon has used the biometric identifiers and biometric information of Plaintiff and the Class to obtain a competitive advantage over other businesses offering similar devices that provide similar voice-based services as Amazon.
- 110. Accordingly, Amazon violated 740 ILCS 14/15(c) by selling, leasing, trading, or otherwise profiting from Plaintiff's and Class Members' biometric identifiers and/or biometric information in its possession.
- 111. In violating BIPA, a law in effect since 2008, Amazon acted, and continues to act, recklessly and/or intentionally. At the least, Amazon negligently violated BIPA.
- 112. Plaintiff and the Class Members are "aggrieved" under BIPA based on Amazon's violation of their rights under BIPA, and accordingly are entitled to seek damages and relief provided for under the statute. *See Rosenbach*, 2019 IL 123186, ¶ 40.
- 113. Plaintiff and the Class Members seek, *inter alia*, statutory damages of \$5,000 per intentional or reckless violation of BIPA pursuant to 740 ILCS 14/20(2), statutory damages

<sup>&</sup>lt;sup>20</sup> PBS Frontline.

of \$1,000 per negligent violation of BIPA pursuant to 740 ILCS 14/20(1), and reasonable attorneys' fees and costs pursuant to 740 ILCS 14/20(3).

WHEREFORE, Plaintiff and the Class pray for the relief requested in the Prayer for Relief set forth below.

#### **COUNT IV**

### Amazon's Violations of the Biometric Information Privacy Act, 740 ILCS 14/15(d)

- 114. Plaintiff incorporates by reference each and every allegation set forth above.
- 115. As set forth above, Amazon employs thousands of individuals around the world, including both full-time Amazon employees and third-party contractors, who have access to and listen to voiceprints and review the transcriptions captured by Amazon's devices.
- 116. Thus, for some or all of the Class Period, Amazon disclosed, redisclosed, or otherwise disseminated Plaintiff's and the Class Members' biometric identifiers and information to third parties.
- 117. Amazon's disclosed, redisclosed, or disseminated Plaintiff's and the Class Members' biometric identifiers and information without satisfying the requirements of 740 ILCS 14/15(d). Specifically, Amazon has never informed nor received consent from Plaintiff or the Class Members to disclose and/or redisclose their biometric identifiers and biometric information to third parties; the disclosure or redisclosure did not complete a financial transaction authorized by the subject; and the disclosure or redisclosure was not required by law or pursuant to a valid warrant or subpoena.
- 118. In violating BIPA, a law in effect since 2008, Amazon acted, and continues to act, recklessly and/or intentionally. At the least, Amazon negligently violated BIPA.

- 119. Plaintiff and the Class Members are "aggrieved" under BIPA based on Amazon's violation of their rights under BIPA, and accordingly are entitled to seek damages and relief provided for under the statute. *See Rosenbach*, 2019 IL 123186, ¶ 40.
- 120. Plaintiff and the Class Members seek, *inter alia*, statutory damages of \$5,000 per intentional or reckless violation of BIPA pursuant to 740 ILCS 14/20(2), statutory damages of \$1,000 per negligent violation of BIPA pursuant to 740 ILCS 14/20(1), and reasonable attorneys' fees and costs pursuant to 740 ILCS 14/20(3).

WHEREFORE, Plaintiff and the Class pray for the relief requested in the Prayer for Relief set forth below.

#### **COUNT V**

# Amazon's Violations of the Biometric Information Privacy Act, 740 ILCS 14/15(e)

- 121. Plaintiff incorporates by reference each and every allegation set forth above.
- 122. For some or all of the Class Period, Amazon has failed to store, transmit, and protect from disclosure the biometric identifiers and/or biometric information of Plaintiff and the Class using the reasonable standard of care within the industry, in violation of 740 ILCS 14/15(e)(1).
- 123. Additionally, for some or all of the Class Period, Amazon has failed to store, transmit, and protect from disclosure the biometric identifiers and/or biometric information of Plaintiff and the Class in a manner that is the same as or more protective than the manner in which the private entity stores, transmits, and protects other confidential and sensitive information.
- 124. For example, as set forth above, Amazon permits its employees and third-party contractors to disseminate biometric data simply because they find it "amusing."

1	125. In violating BIPA, a law in effect since 2008, Amazon acted, and continues to
2	act, recklessly and/or intentionally. At the least, Amazon negligently violated BIPA.
3	126. Plaintiff and the Class Members are "aggrieved" under BIPA based on
4 5 6 7 8	Amazon's violation of their rights under BIPA, and accordingly are entitled to seek damages and relief provided for under the statute. <i>See Rosenbach</i> , 2019 IL 123186, ¶ 40.  127. Plaintiff and the Class Members seek, <i>inter alia</i> , statutory damages of \$5,000 per intentional or reckless violation of BIPA pursuant to 740 ILCS 14/20(2), statutory damages
9	of \$1,000 per negligent violation of BIPA pursuant to 740 ILCS 14/20(1), and reasonable
10	attorneys' fees and costs pursuant to 740 ILCS 14/20(3).
11	WHEREFORE, Plaintiff and the Class pray for the relief requested in the Prayer for
12	Relief set forth below.
13	PRAYER FOR RELIEF
14	WHEREFORE, Plaintiff, on behalf of herself and the Class, pray for judgment against
15 16	Defendants as follows:
17 18	A. entering an order certifying the Class as requested herein and appointing the undersigned as lead counsel for the Class;
19 20	B. awarding statutory damages of \$5,000 for each willful and/or reckless
21	violation of BIPA pursuant to 740 ILCS 14/20(2), or, in the alternative, statutory damages of \$1,000 for each negligent violation of BIPA
22 23	pursuant to 740 ILCS 14/20(1);
24	C. enjoining Amazon from collecting, obtaining, storing, using, selling,
25	leasing, trading, profiting from, disclosing, redisclosing, or otherwise
26	

1	disseminating Plaintiff's and the Class's biometric identifiers until done			
2	so in compliance with BIPA;			
3	D. awarding Plaintiff her reasonable attorneys' fees, costs, and other			
4	expenses pursuant to 740 ILCS 14/20(3);			
5	E. awarding Plaintiff pre-judgment and post-judgment interest, as provided			
6	by law; and			
7	F. awarding such other and further relief as is just and appropriate.			
8				
10	JURY DEMAND			
11	Plaintiff demands a trial by jury on all claims so triable.			
12				
13	Dated this 9 <sup>th</sup> day of July, 2021. Respectfully submitted,
